

歴代受賞者

- 2004 Joseph R.Vadus
2006 Masaaki WAKATSUCHI 若土 正暁
2008 Toshio YAMAGATA 山形 俊男
2010 Shigeo TAKAHASHI 高橋 重雄
2012 Akira ASADA 浅田 昭
2014 Yuichi SHIRASAKI 白崎 勇一
2014 Ahn Hee-do

創設趣旨

TECHNO-OCEAN AWARD は、2004 年より海洋関連活動等に多大なる貢献をしたと認められる人、テクノオーシャン・ネットワークの理念の現実と諸活動に格段の寄与を果たしたと認められる人など、テクノオーシャン・ネットワークがその対象者を表彰するものです。

FOUNDING STATEMENT

Since 2004 the Techno-Ocean Award has been awarded to those people who have made a large contribution to ocean related activities or who have provided significant support to the realization of the policies of the Techno-Ocean Network policies and its various activities

2014 AWARD WINNER

白崎 勇一

白崎氏は日本の海洋地球観測用海底ケーブルシステム開発に 20 年余にわたって取り組み、JAMSTEC が建造した DONET を初めとする観測システムの実現につながる基礎を築き、いまなお、次世代の海底地震津波観測ケーブルの開発や、3.11 の巨大地震・津波被災を繰り返さないための日本海溝海底地震津波観測網の構築に尽力しており、テクノオーシャン・アワードの要件をみたしているものと評価される。

2014 TECHNO-OCEAN AWARD

Yuichi SHIRASAKI

Mr. Shirasaki has been involved in the development of ocean floor cable systems for Japan's Global Earth Observation System for over 20 years. He established the groundwork to realize submarine cabled seafloor observatories such as DONET (the Dense-Ocean-floor Network System for Earthquakes and Tsunamis), as constructed by JAMSTEC. Even now he continues to contribute to developing the next generation of such cable systems and has been working to establish the Japan Seafloor Observation Network for Earthquakes and Tsunami so that the degree of devastation caused by the March 2011 Great East Japan Earthquake will never be repeated. It is contributions such as these that more than satisfy the requirements of the Techno-Ocean Award.

2014 AWARD WINNER

安 熙道

Techno-Ocean コンベンションにも毎回のように韓国側参加者とともに参加してきたほか、長年にわたり、日韓の海洋関係コミュニティの間の橋渡し役として多大の貢献を果たしており、テクノオーシャン・アワードの要件をみたしているものと評価される。

2014 TECHNO-OCEAN AWARD

Ahn Hee-do

Together with other participants from Korea, Dr. Ahn Hee-do has attended almost every Techno-Ocean Convention that has been held. For a great many years he has played a major role between Korea and Japan, acting as a vital bridge between their ocean-related communities and making a significant contribution to the benefit of all. It is dedication such as this that more than satisfies the requirements of the Techno-Ocean Award.
